### **DETAILED ACTION**

Claims 1, 9-13, 17-24 and 28-30 are pending in the application.

The previous rejection set forth under 35 USC 112 First paragraph is hereby removed due to Applicant's most recent amendments to the claims.

Upon further consideration, a new rejection is in order:

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 9-13, 17-24 and 28-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "with deviations for each of said components being plus or minus 10%". A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board

Art Unit: 1655

of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 1 recites the broad recitation of 20-35% of Embilicanin A for example, and the claim also recites 30-35% (for example) which is the narrower statement of the range/limitation.

Further, it is deemed that "with deviations for each of said components being plus or minus 10% is indefinite because it cannot be determined what percentages of each component Applicant intends to claim. Does this mean that Embilicanin A for example, can be present from 10-45%? Or does it mean that Embilicanin A can be present at 30-45% (which would be 10% more) or 10-25% (which would be 10% less)? The phrase is so vague that the ordinary artisan would not know if they were in possession of the claimed percentage ranges, and therefore the claim is indefinite.

Because claims 9-13, 17-24 and 28-30 depend directly or indirectly upon claim 1, and because these claims do not remedy the lack of indefiniteness of claim 1, these claims are thus properly rejected under this statute.

No Claims are allowed.
